

Workshop

PaR teamwork

Learn hands-on how to organize the PaR methodical framework in a company.

What does it say on the tin?

- get a brief overview of PaR as methodical framework
- experience working with PaR in teams

Whom will you meet?

- standards experts
- process designer
- project members
- product technicians
- requirements engineers

Why shall you attend?

- get a real-life impression of the benefits of PaR
- meet others that have the same challenges

How do we do it?

- with 4 to 20 attendees, best with 16
- best with 4 groups from 4 companies with 4 laptops on 4 tables
- we'll be agile
- interaction & discussions & presentations
- hands-on with R4J (Requirements for Jira, from ease solutions) to try out PaR

When can we do it?

- open standard: half a day (10am - 3pm) - travel friendly
- conference embedded: upfront, afterwards, or as parallel event
- inhouse special: tailored & customized to the needs

What else do you get?

- open standard:
The Booklet for free at the event
- conference embedded:
The Booklet for free at the event
- inhouse special:
The Booklet for free upfront,
The Book for free at the event,
a personal interview call upfront

Functional and technical requirements say **what** shall be done.

Standards and process requirements say **how** it shall be done.

Consulting

corporate potential analysis

What? let someone check where you are

Why? tailored & customized to the situation

How? onsite, inhouse

Coaching

the helping hand

What? let someone bring you forward

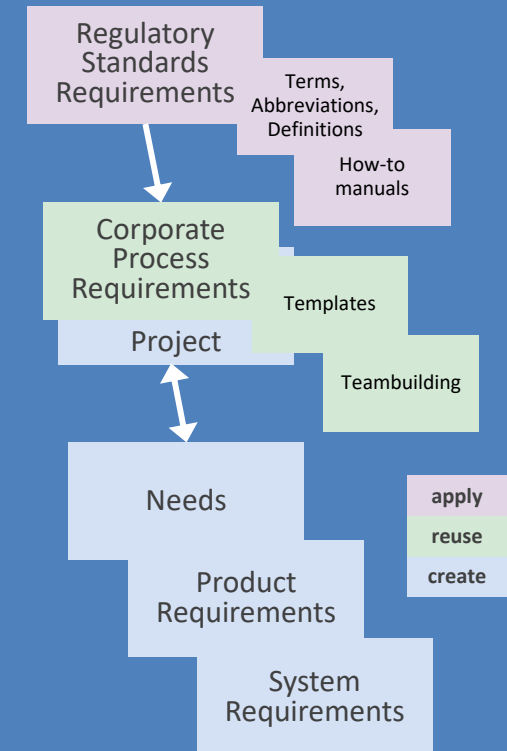

Why? coaching at the desk, on the job, where the challenges are

How? tailored & customized to the need

PaR

methodical framework

Processes as Requirements
